**Vsebinska raziskava**

**Ključne besede ADP:**

epidemija, cepljenje, SARS-CoV-2, covid-19, religija, politična usmerjenost

**Ključne besede ELSST:**

BAKTERIJSKE IN VIRUSNE BOLEZNI, COVID-19, CEPLJENJE, RELIGIJA, VIR INFORMACIJ

**Vsebinska področja CESSDA:**

Zdravila in zdravljenje  
Množični mediji

**Vsebinsko področja CERIF:**

Družbeni problemi in blagostanje, socialno skrbstvo

**Vsebinska področja ADP:**

PRESEJALNO VPRAŠANJE  
KAKOVOST ŽIVLJENJA V ČASU PANDEMIJE  
LESTVICA DEPRESIVNOSTI, ANKSIOZNOSTI IN STRESA (DASS21)  
LESTVICA ZA PREVERJANJE ODNOSA DO CEPLJENJA (VAX)  
VIRI INFORMACIJ O CEPLJENJU  
RELIGIOZNOST  
DEMOGRAFIJA

**Povzetek:**

Gre za novo, razširjeno verzijo podatkovne datoteke iz raziskave o počutju in odnosu do cepljenja med pandemijo COVID-19, ki jo je izvedla mednarodna skupina neodvisnih raziskovalcev. V tej verziji so poleg podatkov s Poljske, Romunije in Slovenije dodatno vključeni še podatki zbrani na Madžarskem. Namen študije je bil v proučevanih državah ugotoviti počutje in odnos prebivalstva do cepljenja ter analizirati, kako sta povezana z različnimi socio-demografskimi značilnostmi, vključno z religioznostjo in politično usmerjenostjo. Ker je raziskava potekala v več državah je bilo za pripravo skupne podatkovne datoteke potrebnih nekaj prilagoditev in usklajevanj. Predlagamo, da si pred uporabo podatkov preberete spremna gradiva z dodatnimi pojasnili, predvsem dokument »Opis neskladnosti in priprava podatkovne datoteke«. Na Madžarskem so raziskavo izvajali nekaj tednov kasneje kot v državah, ki so bile zajete v prvi objavi leta 2021 z naslovom »Počutje in odnos do cepljenja, 2021: Namera za cepljenje proti COVID-19 na Poljskem, v Romuniji in Sloveniji ([doi.org/10.17898/ADP\\_POCP21\\_V1](https://doi.org/10.17898/ADP_POCP21_V1))«. Poleg podatkov za Madžarsko, nova verzija

datoteke zajema tudi 7 novih spremenljivk, in sicer Q22\_2rr; Q28\_r; Q29\_r; Q11\_depR; Q11\_anxR; Q11\_strR; Q15bothR, pri čemer so vse izračunane na podlagi objavljenih primarnih spremenljivk. Izjema je spremenljivka Q15bothR, ki je bila izračunana z uporabo nove metodologije (vse 4 države), medtem ko primarna spremenljivka zajema podatke izračunane po stari metodologiji, vendar zgolj za 3 že objavljene države (brez Madžarske). Dotična raziskava ima dopolnjen naslov, avtorstvo ter spremna gradiva. Za opis prve objave (V1) brez Madžarske glej gradivo "Opis\_V1.pdf". Zaradi lažje dostopnosti so določena gradiva iz prve verzije dostopna tudi v okviru te objave. Datoteka je dostopna v dveh verzijah tj. kot SUF verzija (dostop pod posebnimi pogoji), ki je delno anonimizirana in namenjena uporabi le v raziskovalne namene in kot PUF verzija (standardni dostop), ki je anonimizirana in namenjena splošni rabi v raziskovanju. Odgovori na odprto vprašanje so dostopni v dodatni datoteki (\*xlsx format), pri čemer gre le za odgovore slovenskih respondentov.

**Abstract:**

ni podatka

**Metodologija****Časovno pokritje:**

16. april 2021 - 29. december 2021

**Čas zbiranja podatkov:**

16. april 2021 - 29. december 2021

**Čas izdelave:**

2021

**Država:**

Poljska, Romunija, Slovenija, Madžarska

**Geografsko pokritje:**

Poljska  
Romunija  
Slovenija  
Madžarska

**Najmanjša geografska enota:**

Država  
Občina (Slovenija)

**Enota za analizo:**

Posameznik

**Populacija:**

Polnoletni prebivalci, ki na dan anketiranja niso bili cepljeni proti COVID-19. Ker pa je bila v nekaterih državah v nagovoru vprašalnika opredeljena starost 16 let in več, lahko pri starosti respondentov pride do odstopanj navzdol.

**Vrsta podatkov:**

Številski

**Izključeni:**

Osebe, ki so bile na dan anketiranja cepljene proti COVID-19 z vsaj enim odmerkom.

**Zbiranje podatkov je opravil:**

BIOSTAT - BIOSSTAT (Poljska)

UORADEA - Universitatea din Oradea = Univerza v Oradei (Romunija)

VALICON - Valicon, trženjsko svetovanje in raziskave d.o.o (Slovenija)

UD - Debreceni Egyetem = Univerza v Debrecenu (Madžarska)

#### **Časovna opredelitev podatkov:**

Presečno

#### **Pogostost zbiranja podatkov:**

Se ne nanaša

#### **Tip vzorca:**

Mešano verjetnostno in neverjetnostno

Neverjetnostno: priložnostno

Neverjetnostno: kvotno

Za Poljsko in Slovenijo sta bila uporabljena reprezentativna spletna panela, ki temeljita na verjetnostnem vzorčenju iz registra prebivalstva (Local Data Bank of the Central Statistical Office - PL in SURS - SI). Zbiranje v Romuniji in na Madžarskem je bilo povsem priložnostno, po principu snežne kepe z uporabo socialnih omrežij in drugih kanalov, pri čemer je pomagala skupina študentov.

#### **Način zbiranja podatkov:**

Vprašalnik za samoizpolnjevanje: spletni

#### **Uporabljeni inštrument:**

Strukturiran vprašalnik

#### **Opis zbiranja podatkov:**

Na Poljskem in v Sloveniji (JazVem) je bila anketa izvedena preko spletnega panela, medtem, ko je bila v Romuniji in na Madžarskem izvedena s pomočjo programske opreme Google Forms. Z reševanjem ankete je pričelo 3952 oseb (2101 na Poljskem, 428 v Romuniji in 1423 v Sloveniji), vendar je bilo od teh 2211 (1793 na Poljskem, 37 v Romuniji in 381 v Sloveniji) takih, ki so že bili cepljeni ali so presegli starostno in spolno kvoto (na Poljskem) ali pa niso odgovorili na presejalno vprašanje. Z izpolnjevanjem ankete je tako nadaljevalo 1741 oseb (308 na Poljskem, 391 v Romuniji in 1042 v Sloveniji), ki v času anketiranja niso bile cepljene. Od teh je izpolnjevanje ankete predčasno prekinilo 17 oseb (8 iz Poljske, 2 iz Romunije in 7 iz Slovenije), končno število vseh izpolnjenih anket je tako 1724 (300 iz Poljske, 389 iz Romunije in 1035 iz Slovenije). Za Madžarsko je znano le, da je anketo izpolnilo 507 oseb, kar skupaj znaša 2231 izpolnjenih anket.

#### **Ukrep za zmanjševanje manjkajočih podatkov:**

Respondenti v Sloveniji, Romuniji in na Madžarskem za sodelovanje v anketi niso prejeli nobenih spodbud, medtem, ko so respondenti na Poljskem za sodelovanje prejeli 40 točk, ki jih je možno pretvoriti v denar (za zbranih 1000 točk prejmejo 50 PLN).

#### **Uteževanje:**

Podatkovna datoteka zajema več uteži (SI\_wght, ga\_wght, cntry\_w, w\_tot), pri čemer se spremenljivke nahajajo na koncu podatkovne datoteke. Bistveni sta utež SI\_wght, ki je izračunana glede na spol, starost, izobrazbo in regijo in se uporablja le za analizo podatkov za Slovenijo ter ga\_wght, ki je poststratifikacijska utež, izračunana glede na spol in starost in se uporablja za primerjavo deležev med državami. Opozorilo: podatki za Madžarsko nimajo pripisanih uteži, zato je potrebna previdnost pri primerjavi. Več informacij o izračunu in uporabi uteži je navedenih v spremnem gradivu.

#### **Očiščenje podatkov:**

Podatki so očiščeni.

Preverjena je bila logična konsistentnost. Pri združevanju podatkovnih datotek so bila potrebna določena rekodiranja

in usklajevanja.

**Stopnja sodelovanja:**

Stopnjo sodelovanja je mogoče izračunati le za Slovenijo, saj za preostale države število poslanih vabil ni znano. V Sloveniji je bilo poslanih 3143 vabil, anketo pa je končalo 1035 respondentov, kar pomeni 33 % stopnjo sodelovanja.

**Uvrstitev raziskave po pomembnosti:**

8 - teoretsko ali praktično pomembne raziskave, zapolnjujejo raziskovalno praznino ali imajo široko uporabnost za več praktičnih problemov, imajo dolgoročno vrednost za znanost

**Dostop do podatkov****Mesto:**

Arhiv družboslovnih podatkov

**Velikost zbirke:**

2 podatkovni datoteki.

**Skupaj datotek:**

2

**Omejitve pri uporabi**

Podatki in dokumentacija so na voljo pod mednarodno licenco Creative Commons Priznanje avtorstva 4.0. ## Opis podatkov

### Osnovne informacije o datoteki podatkov

**ID datoteke:** F1

**Naslov podatkovne datoteke:** Feelings and attitudes towards vaccination, 2021: COVID-19 vaccination intention in Poland, Romania, Slovenia and Hungary [Podatkovna datoteka]

**Avtor podatkovne datoteke:** Slavec, Ana; Iwanovska, Magdalena; Bałandynowicz-Panfil, Katarzyna; Łosiewicz, Małgorzata; Olah, Serban; Štebe, Janez; Šoštarič, Mojca; Pék, Győző; Kaszás, Adrienn

**Format:** \*.txt - TEKST

število spremenljivk: 170

število enot: 2231

**Licenca:** ccby

**Verzija:** 16. december 2024

#### Dodatna pojasnila:

1) Nova verzija podatkovne datoteke, v katero so bili naknadno vključeni podatki za Madžarsko. V verziji objavljeni v letu 2021, so bili zajeti podatki za Poljsko, Romunijo in Slovenijo. Dodanih je bilo tudi 7 rekodiranih spremenljivk (Q22\_2rr; Q28\_r; Q29\_r; Q11\_depR; Q11\_anxR; Q11\_strR; Q15bothR). 2) Spremenljivka Q15bothr zajema izračun po novi metodologiji za vse zajete države, medtem, ko primarna spremenljivka Q15\_both (ki je bila objavljena že kot del datoteke V1) zajema izračun po stari metodologiji, pri čemer pa niso zajeti podatki za Madžarsko glej "Opis neskladnosti in priprava podatkovne datoteke". 3) Datoteka je dostopna v dveh verzijah: a) kot delno anonimizirana SUF verzija, dostopna pod posebnimi pogoji (dostop na zahtevo) in namenjena uporabi v raziskovalne namene in b) kot anonimizirana PUF verzija, s standardnim dostopom (registracija) in namenjena splošni rabi v raziskovanju. 1) A new version of the data file, in which subsequently data for Hungary was included. The version published in 2021 included data for Poland, Romania and Slovenia. 7 recoded variables were also added (Q22\_2rr; Q28\_r; Q29\_r; Q11\_depR; Q11\_anxR; Q11\_strR; Q15bothR). 2) The variable Q15bothr includes the calculation according to the new methodology for all covered countries, while the primary variable Q15\_both (which was already published as part of the V1 file) includes the calculation according to the old methodology, but does not include data for Hungary, see "Description of inconsistency issues and preparation of data file". 3) Data file is available in two versions: a) as a partially anonymized SUF version, accessible under special conditions (access on request) and intended for research purposes, and b) as an anonymised PUF version, with standard access (registration) and intended for general use in research.

**ID datoteke:** F2

**Naslov podatkovne datoteke:** Počutje in odnos do cepljenja, 2021: Namera za cepljenje proti COVID-19 na Poljskem, v Romuniji in Sloveniji. Odpri odgovor Q30 [Podatkovna datoteka]

**Avtor podatkovne datoteke:** Slavec, Ana
